

## Senior Geotechnical Engineer

To apply for this position visit our website at [www.aspectconsulting.com](http://www.aspectconsulting.com) and click on Careers.

### Description

Aspect Consulting, LLC, a specialty earth science and engineering consulting firm is seeking a Senior Geotechnical Engineer to join our growing Yakima office. Aspect's geotechnical engineering staff collaborate on a wide variety of public and private infrastructure projects. We provide geotechnical engineering services for market sectors including: transportation, water and wastewater conveyance and treatment, urban infill and re-development, floodplain and natural habitat restoration. Our geotechnical engineers are supported by a diverse and talented group of engineering geologists, hydrogeologists, water resource engineers, CAD/GIS professionals, and technical editors.

The successful candidate for this position will be the first senior geotechnical engineer in our Yakima office — thus we are seeking a motivated and self-directed individual, eager to become a foundation of our growing geotechnical engineering practice in Central/Eastern Washington. Geotechnical engineering experience and client relationships in Central/Eastern Washington will be a huge plus. The position requires travel to various projects sites, and occasionally to our Seattle/Bainbridge Island offices for in-person meetings and collaboration.

### Required Qualifications

- A Master of Science in Civil Engineering, geotechnical engineering emphasis
- PE in Washington State
- 10+ years of experience in geotechnical engineering
- Demonstrable business development acumen
- Proven experience and success managing large and small geotechnical engineering projects
- Excellent written and verbal communication skills
- Self-starter accustomed to working independently

### Preferred Qualifications

- Engineering experience and client relationships in Central or Eastern Washington

### Workplace Setting

- 5-person regional office in Yakima, Washington
- Interactive team of 70 professionals across 5 offices in Washington
- Casual, collaborative office environment

### Why Aspect?

**Active, Engaged, Growing.** Aspect Consulting is the home of regionally-focused earth+water specialists in hydrogeology, geology, environmental remediation, and engineering. A diverse blend of public and private projects, ranging in technical complexity, provides you a balance between applied problem solving, technical analysis, and design. For ambitious entry-level and seasoned practice builders alike, Aspect offers a supportive, collaborative workplace designed to help you thrive and grow professionally.

Aspect offers a competitive benefits package and incentive compensation system to reward the collective team and recognize individual contributors. Aspect Consulting is an equal opportunity employer.
